

Milledgeville

15th February 1830

Dear Sir

Your letter with the Order enclosed
came to hand on Saturday. I have the Money, and will
make up the balance and transmit it by Post Mail as directed.

I suppose you may have heard that Safford has been
appointed Judge instead of Lamon. You will say there is
a "new Virtue stand" when applied as you did apply it. Upon
the Council of the present administration I forbear to say
anything: I can't praise, and do dislike to Com. demerit.

Our friend Purcell of the Statesman has got
into a large difficulty. He was arrested on Friday
night last, on information given by his partner (Mr. Pol
=hill) charged with bringing, or having brought into the
State and circulating the same, the famous insurrectionary
Pamphlet, upon ^{which} the Legislature enacted a Law at its close.

It can be brought in among with an
Washington Court
